

WARRENTON, VIRGINIA

PIEDMONT RAILROADERS

The club was formed in 1995 in an effort to provide a place where railroad enthusiasts could share their individual railroad interests with each other.

Although we do a lot of model railroading, we are not just a model railroad club. We promote other aspects of railroading as well, including rail-fanning, preservation, railroad history, photography, etc. We endeavor to create a common bond between all interests.

Members currently participate in a variety of club activities to include modeling in Z, N, HO, S, O, G guage and 7.5" guage (ride on size), restoration of historic equipment, railroad-oriented programs, and club sponsored trips. In addition to appearing at several shows during the year, the club supports the community with a verity of activities and shows in conjunction with the schools, libraries, historic associations and support of the Boy Scout Railroading program.

Membership Information

No matter what your particular railroad interest may be, we are sure you will find friendship with the members of our club. Please join us and add your own specific interests to help our organization grow as we explore all aspects of railroading.

Application for membership information, form, and fees can be found on our website:

The Club supports various community activities by participating in public train shows, and town-sponsored railroad events and festivals.

The Club

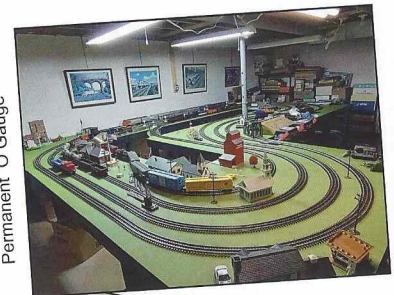

The Piedmont Railroaders is an active club of over 30 members. We enjoy watching trains, riding trains, and running model trains of various scales at our permanent facility, the **Waystation** in Remington, VA. The group participates in public train shows and community train festivals in Warrenton, Remington, and Culpeper. In addition, our layouts are set up at some train events in Manassas plus the Dulles Expo Center, in Chantilly.

Meetings

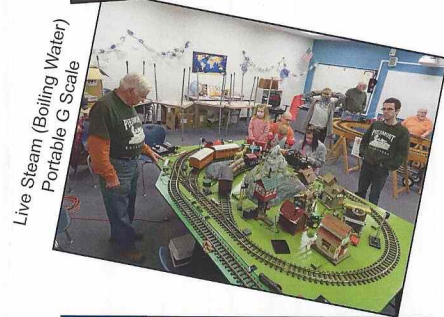

The Club meets once a month for our monthly business meeting on the fourth Wednesday of the month at our Waystation location in Remington, VA. Meetings typically consist of a short business session and a railroad-related presentation to the members.

Operating Sessions

On a weekly basis the club's model train room, at the Waystation, is open for member's use on Monday evenings. We have a three track O layout, a three track HO layout (which operates DC and DCC control systems), a large two track G scale layout, and the ability operate G scale live steam.
