

# **ANNOUNCING**

**The Ann Arbor Railroad Technical & Historical Association  
43rd Annual Meeting**

**Saturday, September 28, 2024**

**10:00 A.M. at Durand Union Station**

For the presentations this year we have invited a representative of WATCO's Ann Arbor Railroad, a representative of the Great Lakes Central Railroad, Jeff Hammond on Architecture in Owosso, and Dave Harrell presenting a video on the Ann Arbor Railroad of the past. We will also have members selling models and other Ann Arbor RR paraphernalia.

During the business meeting we will be nominating and electing persons for the offices of president, vice president, secretary-treasurer, and four Board of Director positions. Most of the officer incumbents are running for re-election and there are five nominees for the four Board of Director positions. Technically all positions are "open," so nominations from the floor are also permitted. Qualifications for president require prior membership on the Board of Directors. Qualifications for all other positions require at least one year of membership in the organization. There will be no lunch this year as catering costs have become prohibitively expensive. Instead, we will conclude the meeting around 1 p.m. so members can get lunch on their own
