

The A Class Wagon – ‘A’ for Air ventilated

These closed 4 wheel wagons had hand actuated brakes, here is a drawing used to make the model.

Many variants existed, here an AG Class Wagon end wall Louvers, this ALJ Class has Louvers all round.

A Masonite box was covered in 1.6mm Balsa as scribed siding, plastic vents for end wall inserts.

The completed model uses Hook and Chain couplings as do all BTR 4 wheel Wagons.
