

The BTR, River Boat based at Tabletop.

1/20th Scale model of ROTHBURY, foreshortened to capture the character yet stay manageable.

Sketches done in 1982, based on ROTHBURY.

The BTR, River Boat based at Tabletop.

The real ROTHBURY

The model under construction during November 1982.

The BTR, River Boat based at Tabletop.

The hull was 1/8" ply, the keel was for a flat bottom with internal keel stiffener to enable tight turns.

It has 27 MHz R/C, on-board battery, differential for independent Paddle control in addition to usual rudder.

The BTR, River Boat based at Tabletop.

The completed model on a neighbor's swimming pool for its maiden voyage in 1983.
