

# The BTR – Water Tanks and Water Columns

The BTR has several water tanks and water columns for servicing Steam Locomotives.

Typical Queensland Railways - Water Tanks, were built in a variety of configurations throughout QLD.

BTR Loco taking water on the S&TR.

BTR Standard platform Water Tank Stands

Geof's BTR Standard Water Columns are fabricated from 13mm plastic garden watering system parts.

The BTR is yet to model elevated Water Tanks and yet this is the 'look' we are seeking.
