

HOn3 Queensland Railways – Rollingstock made by Geof Coleman – 1986 – 2005

Geof had scratch built HOn3 (10.5mm gauge) wagons in Queensland Railways style between 1986 and 2005.

These are depicted and captioned in the following photos.

Where most modellers of Queensland Railways work in HOn3 1/2 (12mm gauge) at 1:87 scale, Geof had a great deal of HOn3 ex Rio Grande (USA) model parts [wheels and bogies]. Consequently, all these models have 10,5mm gauge in lieu of the usual 12mm gauge.

4 Wheel wagons;

A Class wagon

AG Class wagon

ALJ Class

ALG 11 feet wheelbase

ALG 12 feet wheelbase

ALY Steel version A Class

HOn3 Queensland Railways – Rollingstock made by Geof Coleman – 1986 – 2005
