

Lionel Ambassador Review of Elevated Oil Storage by CASG

Combine your accessories to make an operating scene

Lionel's 2017 catalog contains the Elevated Oil Storage Tank 6-49877. It features Chrome tank, yellow piping single dome platform, light post, control valve shut offs, gray pylons and base.

Combining this storage tank with other accessories such as the previously released oil storage tank, operating oil derrick, oil derrick and oil drum loader lets you create a complete Oil Handling Facility. Have FUN putting together an action center on your layout. See the video for night operations.
