

Lionel Ambassador Review of Lionel/AF 6-47968

Chicago & Northwestern Stock Car

by CASG

A Great Looking stock car by Lionel for American Flyer

The Chicago Stocks yards were the major hub for commercial animal transport for many years. Now you can own a stock car in the premier colors of the Chicago North Western line. The Hi-rail car comes with operating couplers, opening doors with operating latches and brake wheel. The graphics are sharp and clear along with good roof detail and metal trucks. Have fun with this car in your farm and stock yard scenes or operations. See the video on our CASG website below or CASG Youtube to see it in action.
