Join Us for

There Is No Place Like Dome

Paul Kutta will present a program of slides taken on his roundtrip on VIA RAIL's Canadian train between Toronto and Vancouver during the winter of 2005.

Paul Kutta is no stranger to the subject of railroads having spent 36 years in their employ beginning with the New York Central and ending with Conrail, with a brief six month stint with the Octoraro Railroad in between. Paul frequently shares his passion for railroading through the presentations that he gives to the many railroad historical societies of which he is a member. Many of you may recall his program about the railroads of Cuba which he presented to the Delaware Valley Chapter at a previous banquet. It is a pleasure to have him with us again and only this time we will be going north of the border. Expect to see beautiful scenery viewed from the dome cars as one of Canada's premier trains makes its way across the Canadian Rockies.

As always, we will enjoy a delicious buffet dinner prior to our featured program, so come prepared with a hearty appetite!
