

Nebraska Railroad Museum (NRM) Relocation Project

Project Description

The Nebraska Railroad Museum is Seeking to transfer its historic railroad museum and rolling stock (passenger railcars and locomotive) to Nebraska City in an effort to continue its mission of educating the public about railroad history in the state of Nebraska.

Project Scope

In order for the Nebraska Railroad Museum to successfully complete this project, there are several tasks that must be accomplished first. Listed below are few accomplishments needed in order to make this Project successful.

- Acquire property
- Acquire track on property
- Acquire depot on property
- Rehabilitate the Railroad track
- Relocate Rolling Stock (passenger cars & locomotives)

Objectives

- Acquire funding for the relocation of museum and railcars.
- Acquire the infrastructure needed to run a successful railroad museum.
- Successfully relocate the railcars.
- Complete rehabilitation of railroad track on the new site.
- Establish a successful excursion operation in the new location.

Services

Listed below are few services NRM will provide.

- General excursions
- Caboose rentals for birthday parties
- Rental of business car for private parties
- The experience of ride on the Polar Express train ride.
- Experience the Day out with Thomas train ride.

Success Factors

To date these are some of the tasks that were successfully accomplished in this project.

- Burlington Northern-Santa Fe Railway donates property for the new site in Nebraska City.
- Land is surveyed
- Prepare the rolling stock for transport to new location.
- Prepare artifacts & archives for transport.
